

Returning To School During COVID-19

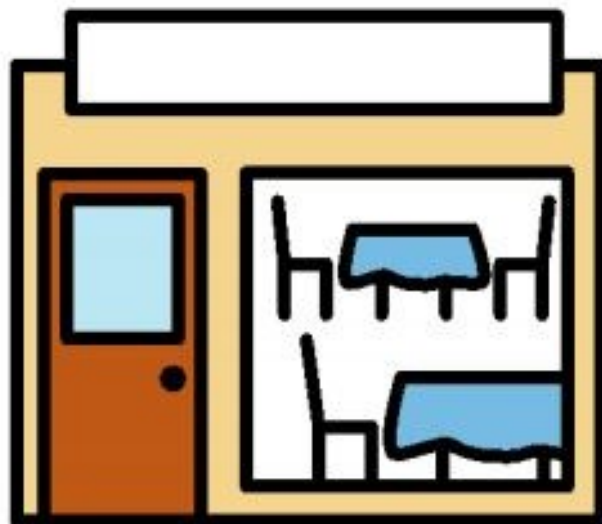

By Heather Androsoff

We have done a good job
of social distancing and
staying at home.

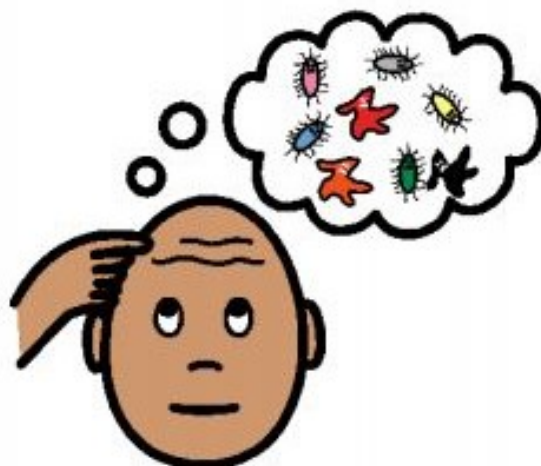

Some places will start to
re-open gradually.

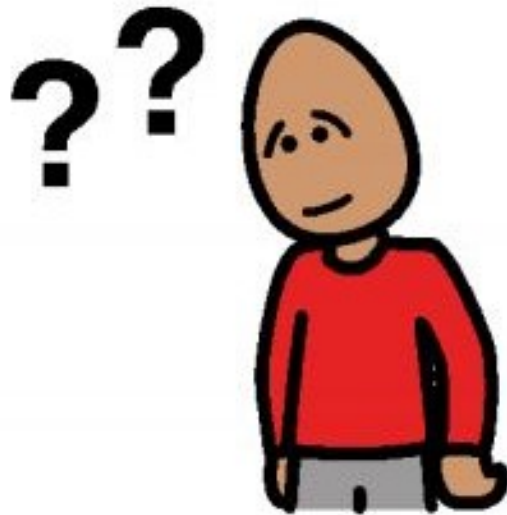

Schools are re-opening
soon.

We need to be careful so
that we don't spread
germs at school.

To keep everyone safe,
things will be different at
school.

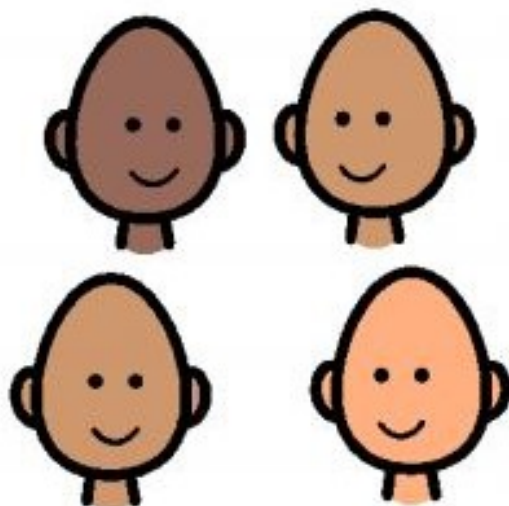

Some children will stay at
home.

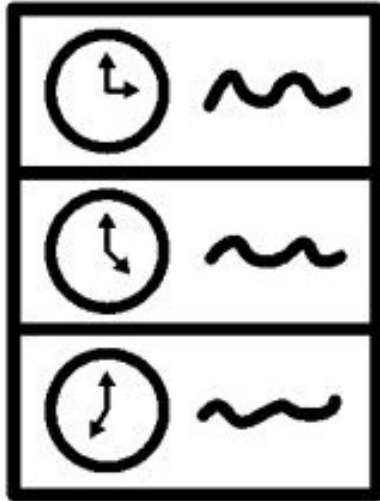

Learning will take place
at school and online.

Children who come to
school will attend in
smaller groups.

Children who come to school will attend part-time.

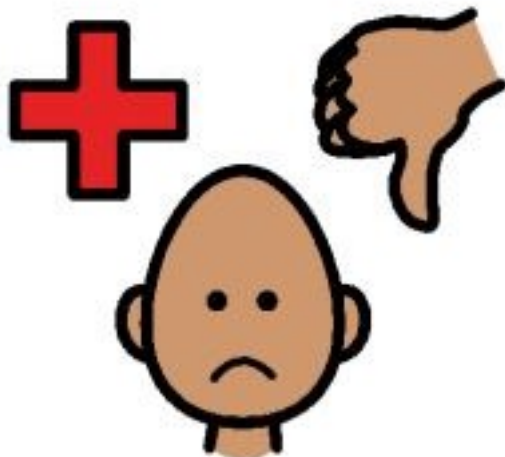

Parents will be asked to stay out of the building to limit the amount of people inside.

Everyone entering the school needs to make sure they are healthy.

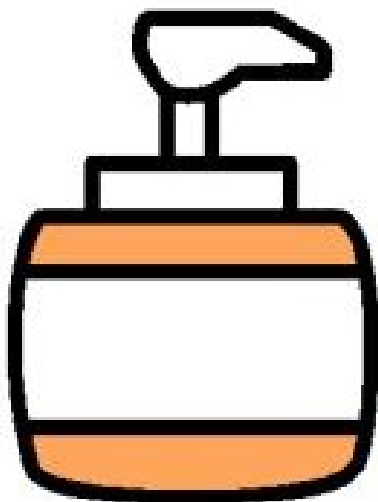

Anyone who is feeling poorly needs to self-isolate at home so others don't get poorly.

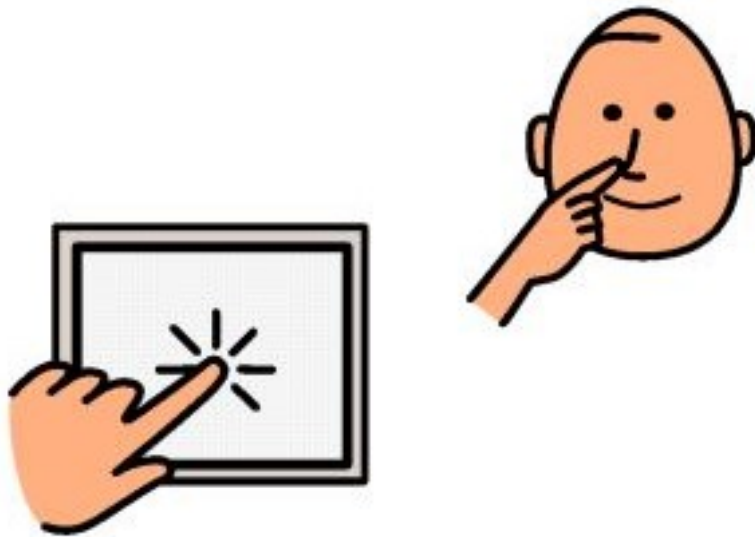

Everyone that enters school will need to wash their hands.

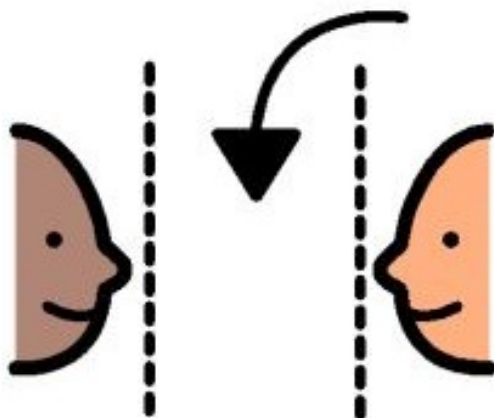

Using Hand Sanitiser at school is also a good idea.

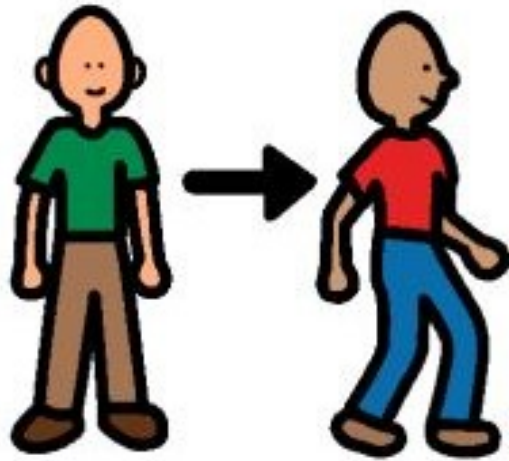

We need to limit the things we touch so germs don't spread.

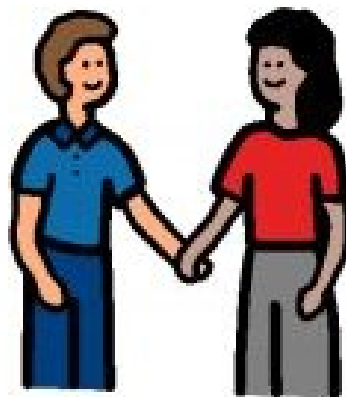

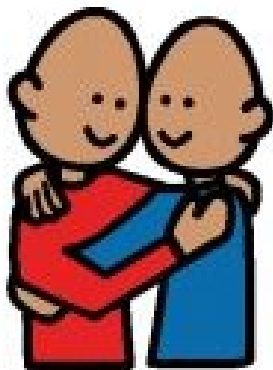

We also need to physically distance ourselves from others.

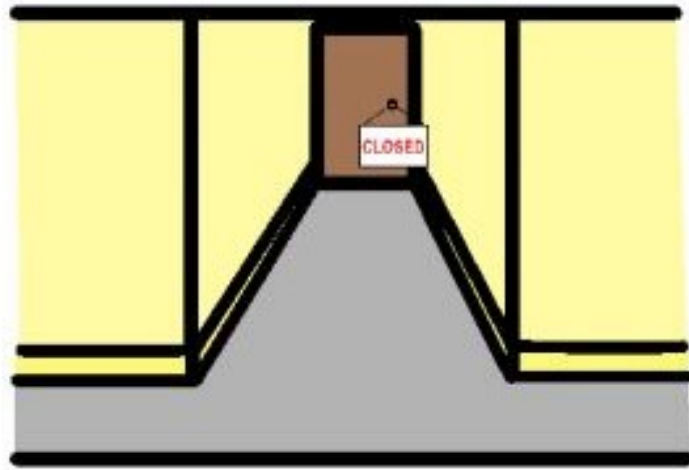

Lines at school need to
have bigger spaces
between each person

We will not be able to
hug others at school.

Some parts of school
might be closed.

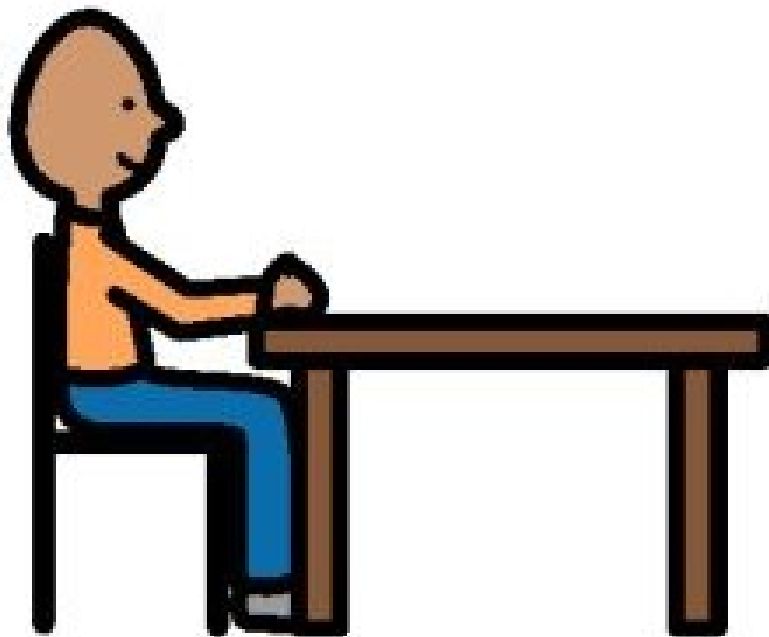

The classrooms will look
different.

The tables will be spread out instead of in groups.

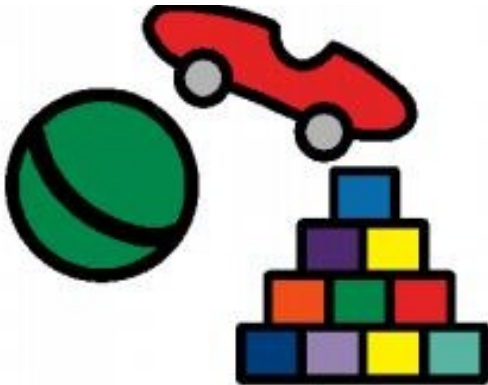

Students will sit at their own table.

Many things will be put
away.

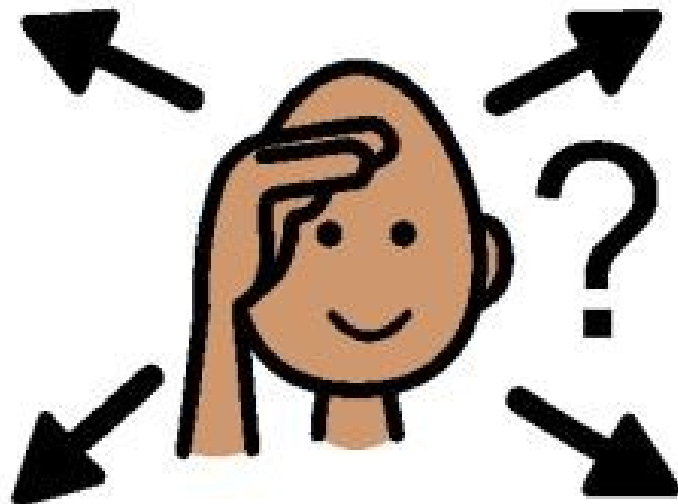

We will not be able to
share toys or equipment.

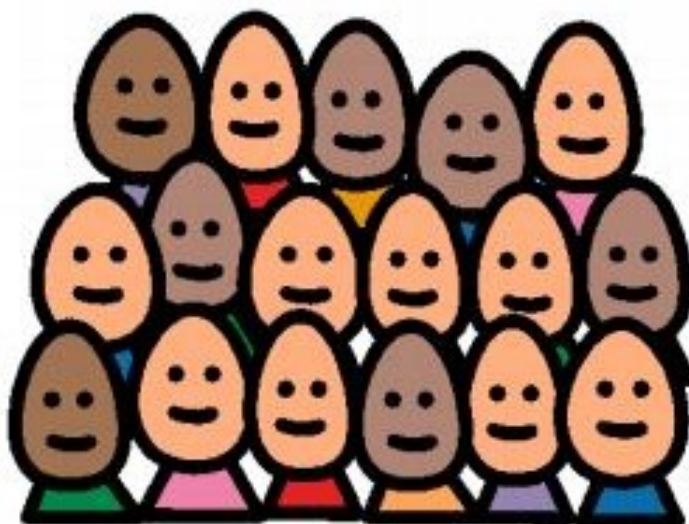

We will not be able to
share food at school.

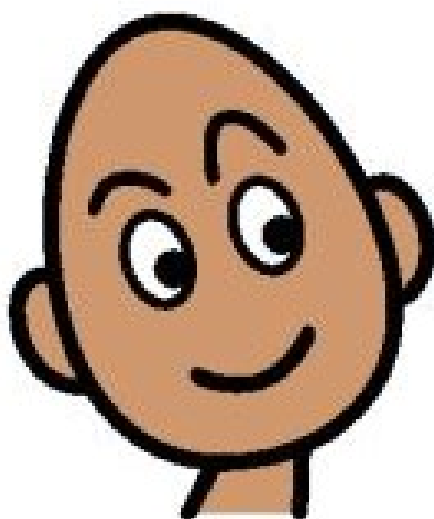

Friends from other classes
might not be outside at
the same time.

There will not be any
assemblies.

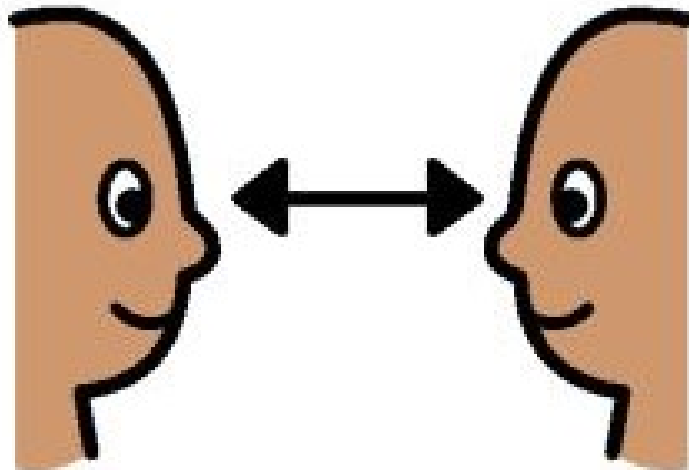

There are many things
that we will be able to do
at school.

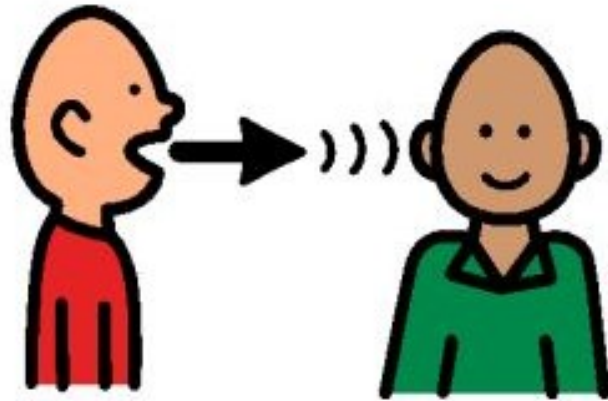

It will be nice to be in
school again.

It will feel good to see
some familiar faces.

It will feel good to
socialise with others from
a distance.

It will feel good to learn
at school.

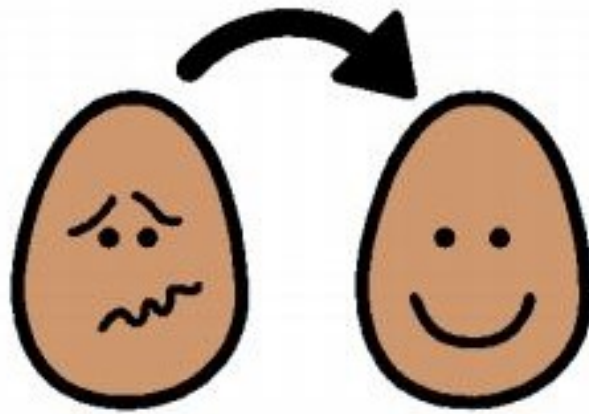

The cleaners will work
hard to keep our school
clean.

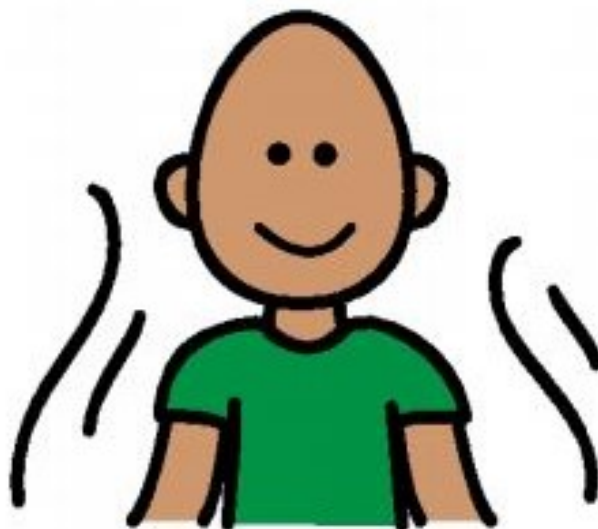

The teachers will help
everyone stay safe.

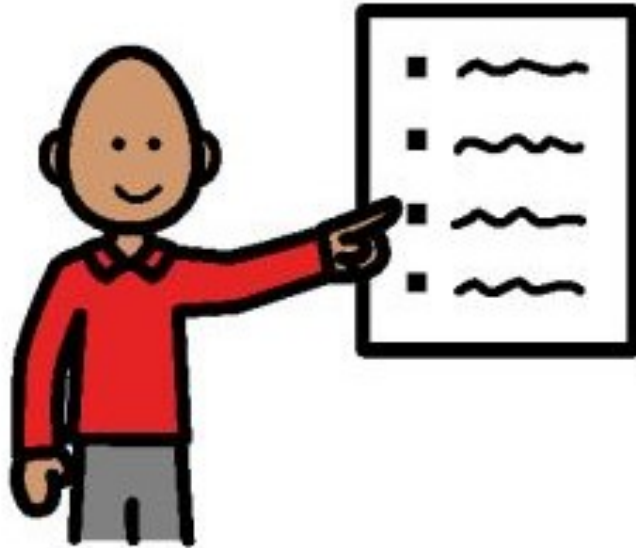

These changes at school
are temporary. They will
not last forever.

When it is time, things at
school will be more
relaxed.

For now everyone needs
to follow the safety rules.

Being careful at school
helps to keep everyone
safe and healthy!
