

The 1960s saw the growth of leisure activities and popular entertainments and the decade is still known as the 'Swinging Sixties'. Technology was developing fast and soon TVs and record players were a fixture of most people's homes.

Over the coming weeks, your homework is to research and create a presentation about the growth of popular entertainments and leisure activities in the UK during the 1960s. Choose **up to 3** of the topics below and make notes on each. Use this research to then prepare a presentation to share with your class.

Your presentation can be in any form you choose (posters, a booklet, film, animation, Powerpoint). Please ask if you need any paper, pens or even access to iPads or Chromebooks (iPads and Chromebooks can be used during break and lunch, if needed).

Choose up to 3 topics from the list below:

- **Pop music (eg. The Beatles/Motown)**
- **Fashion (eg. Mary Quaint's mini skirt, hippies)**
- **Children's TV (eg. Blue Peter/The Magic Roundabout)**
- **Pop Art**
- **Children's books and comics**
- **Football (1966 World Cup) and other sports or dance crazes**
- **Toys and games (eg. Lego, Action Man)**

Bring your presentation to school on Monday 24th and Tuesday 25th July so that we can share it with the rest of the class. Good luck and enjoy.
