Online Safety Competition 2021
Warwickshire Primary Schools

Safer Internet Day 2021 challenge
Key Stage 2

Watch the SID2021 slides and film your teacher will show you.

Your challenge is to invent your own quiz or game to help other pupils in key stage 2 identify when to trust information is true or check it out if it is false.
You need to:

- Design your quiz/game and explain how it works
- Provide the content, questions and answers
- Present it – for example; this can be a film, slide show, game that you have made

NB: If you scan anything it must be clear. The judges must be able to open any files without needing special software. File names must include a number, indicating what order to open them in. Example: Mygame1, Mygame2 etc.

There is a fantastic Lego Education resource as a prize for the winning school.

You will give your entry to your teacher who will arrange to pick the best one by Friday, 12th February 2021. The best entry from your school will be emailed to the judges and the winning entry will be posted online on Friday 19th March 2021 at 11am

Good Luck!
