Water Orton Primary School

Pupil and parent/carer behaviour Statement – COVID19 June and July 2020

These measures are designed to reassure the vast majority of our parents and pupils that we will take action if someone breaks with the new socially acceptable norm.

We have adapted our behaviour policy to include reference to social distancing and to reduction in the risk of infection. We are confident that our pupils and parents/carers will work with us but, in the unlikely event that an older child who has the ability to understand their actions, repeatedly and knowingly disregards social distancing expectations we will treat this as a breach of our behaviour policy.

We will regard spitting, deliberately coughing towards another person or comments relating to being infected with Covid19 to be very serious indeed and will consider fixed term exclusions for this sort of behaviour.

We reserve the right to prevent parents that disregard the rules from entering our school site.
