1. Purpose and scope

This policy aims to:

- Set guidelines and rules on the use of school's social media channels
- Establish clear expectations for the way members of the school community engage with each other online
- Support the school's policies on data protection, online safety and safeguarding

Staff, students and parents/carers are required to read, understand and comply with this social media policy.

This policy applies to the use of social media for both business and personal purposes, whether during school/working hours or otherwise.

It applies regardless of whether the social media is accessed using:

- School IT facilities and equipment
- Equipment belonging to members of staff and pupils
- Any other IT/Internet-enabled equipment

All members of the school should bear in mind that information they share through social networking applications, even if they are on private spaces, may be subject to copyright, safeguarding and data protection legislation. Everyone must also operate in line with the school's equalities, harassment, child protection, safer recruitment, and online safety and ICT acceptable use policies.

1.1 Definition of social media

For the purposes of this document, 'social media' is considered to include all technologies that allow individuals to communicate and share information (including photos and video). This includes group messaging services such as WhatsApp.

2. Use of official school social media

The school does not have any official social media channels.

The school will not like, follow or endorse any other social media contributions.

3. Personal use of social media by staff and Governors

The school expects all staff (including governors and volunteers) to consider the safety of pupils and the risks (reputational and financial) to the school when using social media channels, including when doing so in a personal capacity. Staff are also responsible for checking and maintaining appropriate privacy and security settings of their personal social media accounts.

Staff members will report any safeguarding issues they become aware of.

When using social media, staff **must not**:

- Use personal accounts to conduct school business
- Accept 'friend requests' from, or communicate with, pupils past or present
- Complain about the school, individual pupils, colleagues or parents/carers

- Post images of pupils
- Express personal views or opinions that could be interpreted as those of the school
- Link their social media profile to their work email account
- Use personal social media during timetabled teaching time

Any concerns regarding a member of staff's personal use of social media will be dealt with in line with the staff behaviour policy.

Any communication received from current pupils (unless they are family members) on any personal social media accounts will be reported to the designated safeguarding lead (DSL) or member of the senior leadership team immediately.

Staff should not also do not have contact via personal accounts with past pupils (if ongoing communication is required, this should be using via official school channels).

4. Personal use of social media by pupils

- Be respectful to members of staff, and the school, at all times
