Year 2 Autumn 2 Fire

Maths

We will be learning addition and subtraction using two digit numbers. We will also be completing missing number problems using addition and subtraction. We will learn about 2D and 3D shapes, look at their properties and explore lines of symmetry.

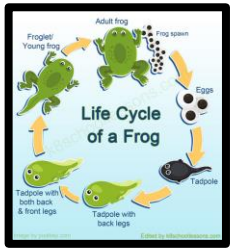

English

We will research, plan, write and present a weather report. We will also write a historical recount about the great fire of London.

PE

We will learn to be confident and safe in the spaces we learn to play games. We will focus on control and coordination and try to improve this. We will practice using equipment such as balls and nets in volleyball.

Computing

We will learn how to use different forms of technology to take photographs. We will learn how to manipulate and experiment with photographs.

Science

We will learn about how animals have offspring that grow into animals. We will learn about the basic survival needs of animals. We will be able to name the stages of the life cycle of some different animals.

History

We will learn about the gun powder plot and the great fire of London. We will research Samuel Pepys and learn about how he was lined to the great fire of London.

Music

We will learn to play a variety of percussion instruments. We will use our voice and body sounds such as clapping and clicking to compose music.

RE

We will learn how your religion or world view might be seen by others. We will think about how other peoples world views might influence the choices they make.

Geography

We will learn about seasonal and daily weather patterns. We will name weather types and learn about hot and cold climates around the world.

Art

We will learn about how the artist Kandinsky and how he uses colour. We will learn the primary and secondary colours and how to mix shade and contrast colours.

PSHE

We will learn about differences and understand what stereotypes are. We will know what is meant by bullying ad know how to seek help.

Year 2 Autumn 2 Fire

Maths
In Maths, we will be learning about addition and subtraction across 2-digit numbers and completing missing number problems. We will also look at 2D and 3D shapes in detail, focusing on their properties, alongside understanding lines of symmetry.

English
In English, we will be learning about weather reports, building up to being able to write and deliver our own. We will also have the opportunity to write a historical recount of the great fire of London.

Science
Science this half term, will focus on how animals have off-spring that grow into adults. We will understand the basic needs of animals and name different life cycles of different animals.

Geography
In Geography, we will look at seasonal and daily weather patterns, different types of weather and hot and cold climates around the world

Music
Music, this half term, will focus on a variety of percussion instruments. We will use our bodies and voice to create interesting sounds on our own and with others.

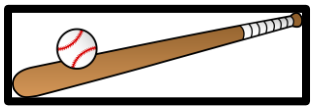

PE
PE will focus on coordination and control in order to be confident and safe in the spaces we play in. We will practice this using a range of equipment and work together to make up our own games

History
In History, children will learn all about the Gun Powder Plot and the Great Fire of London. We will explore significant individuals such as Samuel Pepys and their impact on the Great Fire of London.

Art
In Art, we will discover artists such as Kandinsky and explore how they use colour. We will learn about primary and secondary colours and how to mix them to create shade and contrast

RE
RE will focus on how religions and world views might be seen in the world. We will also look at how someone might choose to live and the choices that they make.

Computing
In computing, we will learn how to use different forms of technology to take accurate photographs in order to learn how to manipulate and experiment with photos.

PSHE
PSHE will look at celebrating differences and understanding stereotypes. There will also be a focus on bullying, learning about what that means and how to ask for help.
